## GROUP COMPANY PROFILE

We are a 65 years old established steel company with plants in North India and Corporate office in Delhi. Our plants have a production capacity of 120,000 MT per annum. With a huge experience in steel making, coupled with our values, Customer Delight is our 'Way of Life'...

Being an ISO 9001:2015 certified company we are constantly making every possible effort to upgrade our technology and improve our product quality to retain and enhance our market share. We have production capacity of 1,20,000 TPA and we manufacture all kinds of carbon and alloy steel, which find wide applications in various industries.

## CERTIFICATES

## MANUFACTURING FACILITIES

### UNIT 1 : MANDI GOBINDGARH, PUNJAB

The Modi Oil and General Mills is in existence since 1953, and has been in the business of steel rolling since 1960. It started off with a small mill, but over the past 65 years, the unit has undergone constant up-gradation and today it is a composite rolling mill complex that produces all kinds of engineering quality steels.

### UNIT 2 : GHAZIABAD, U.P

The company has become a dependable name in the domestic as well as international market. It started as a partnership firm and was taken over by National General Industries Private Limited in the year 1987. Subsequently in the year 1993, it was converted into a public limited company. With its focus on quality and timely delivery, we see sky as our limit.

### COMPONENTS

Taking forward our 6 decade long legacy of steel making, we have added "Machined Components" to our product basket.

We understand that clients like you have steel requirement in various shapes, sizes and forms. Further we also understand that you would prefer to deal with fewer vendors. The saving on account of dealing with an integrated solutions provider is a bonus.

Buying from us would be a Complete Solutions Advantage as:

- You have the option of buying component directly from steel manufacturer instead of buying steel from one vendor and then getting it machined from another.
- Our in house mill will ensure uninterrupted steel supply, perennially, hence no more hassle of late delivery because of steel stock outage.
- Would be beneficial in cutting down freight cost as well. You would save cost on account of freight.

### OUR DESCRIPTIVE PRODUCTS RANGE

#### STEEL ROUND / SQUARE / BARS

We are one of the leading steel producers of hot rolled steel. Our 65 years of experience in the industry provide superior quality materials as per required specification and size. We process our products with the highest quality steel and rolling processes to ensure quality & strength. Our produce of quality rounds/bars/squares are processed with low tolerances, straightness and defect free surfaces. We maintain high quality standards from pre to post rolling stage

#### ROUND BARS

Mild steel, carbon steel & alloy Steel (IS 2062,L/C , EN8, EN15, Class II, Class IV, 16MnCr5, 20MnCr5, ST52 and other carbon & Alloy Steel grades) in the range of 25mm to 255mm.

#### SQUARE BARS & ROUND CORNERED SQUARES

Mild steel, carbon steel & alloy Steel (IS 2062,L/C , EN8, EN15, Class II, Class IV, 16MnCr5, 20MnCr5, ST52 and other carbon & Alloy Steel grades) in the range of 25mm to 175mm.

#### FLAT BARS

Mild steel, carbon steel & alloy Steel (IS 2062,L/C , EN8, EN15, Class II, Class IV, 16MnCr5, 20MnCr5, ST52 and other carbon & Alloy Steel grades) in the range of 150x20 to 300x65.

#### SPECIAL PROFILE

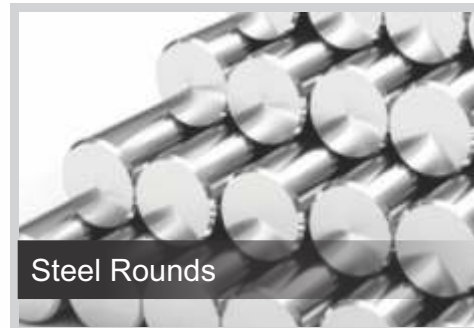

We have a dedicated tool room and committed team for special profiles. These profiles find application in Heavy Commercial Vehicles, Earth Moving Equipments and Construction Machinery.

We are happy to develop bespoke and custom made profile for our customers.

#### APPLICATION

Our products have found users in varied industries.

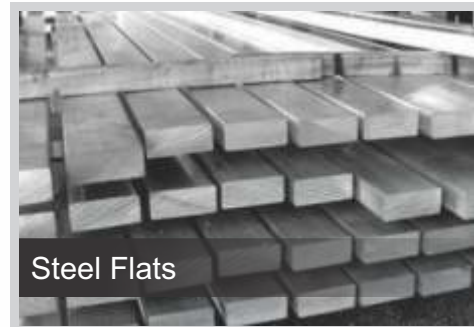

We cater to: Hand Tool Industry, Fasteners, Forgers, Ordnance Factories, Construction Machinery Part Manufacturers, Railway, Auto Component Industries etc.
